

# TASKS TO MAKE GIT REPOSITORY

OPEN GITHUB AFTER SING IN THEN CLICK CREATE REPOSITORY

The screenshot displays the GitHub Dashboard interface. At the top, the 'Dashboard' header is visible alongside a search bar and navigation icons. The left sidebar features the 'Create your first project' section with a 'Create repository' button. The main content area is dominated by a 'Join GitHub Education!' banner, which highlights 'Free and discounted services for teachers and students' and lists partners like Copilot, Heroku, and Microsoft Azure. Below the banner is an 'Ask Copilot' input field and three action buttons: 'Create a profile README for me', 'Python password endpoint', and 'Find issues assigned to me'. To the right, the 'Explore repositories' section lists popular projects such as 'harvester / harvester', 'darkreader / darkreader', and 'llvm / llvm-project'. The bottom of the image shows a Windows taskbar with various application icons and a system clock indicating 21:59:23 on 17-01-2025.

## ENTER ENROLLMENT NO. AS REPOSITORY NAME

 New repository

Q Type 7 to search

### Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)

Required fields are marked with an asterisk (\*).

Owner \*

Repository name \*

 rudradave12

/

2301030400084

 2301030400084 is available.

Great repository names are short and memorable. Need inspiration? How about [potential-garbanzo](#) ?

Description (optional)

☒  Public

Anyone on the internet can see this repository. You choose who can commit.

☐  Private

You choose who can see and commit to this repository.

Initialize this repository with:

☐ Add a README file

This is where you can write a long description for your project. [Learn more about READMEs.](#)

Add .gitignore

.gitignore template: None

Choose which files not to track from a list of templates. [Learn more about ignoring files.](#)

Choose a license

License: None

A license tells others what they can and can't do with your code. [Learn more about licenses.](#)

 You are creating a public repository in your personal account.

Create repository

Activate Windows  
Go to Settings to activate Windows.

## AFTER CREATING REPOSITORY CREATE 2 FILES AS ASSIGNMEN\_1

The screenshot shows a GitHub repository page for the user 'rudradave12' and repository '2301030400084'. The repository is public. The page includes a navigation bar with links to Code, Issues, Pull requests, Actions, Projects, Wiki, Security, Insights, and Settings. Below the repository name, there are buttons for Pin, Unwatch (1), Fork (0), and Star (0). The main content area features two cards: 'Set up GitHub Copilot' and 'Add collaborators to this repository'. Below these is a 'Quick setup' section with instructions for setting up the repository on a desktop or via command line. The 'Quick setup' section includes a code block with the following commands:

```
echo "# 2301030400084" >> README.md
git init
git add README.md
git commit -m "first commit"
git branch -M main
git remote add origin https://github.com/rudradave12/2301030400084.git
git push -u origin main
```

Below the code block, there is a section for '...or push an existing repository from the command line' with the following commands:

```
git remote add origin https://github.com/rudradave12/2301030400084.git
git branch -M main
git push -u origin main
```

At the bottom of the page, there is a footer with the GitHub logo, copyright information, and links to Terms, Privacy, Security, Status, Docs, Contact, Manage cookies, and Do not share my personal information. There is also a 'ProTip!' section and an 'Activate Windows' watermark.
